Preliminary Inspection

An inspection was conducted on the 16th December 2021 at the above school. In summary, no major pest issue was found during the time of inspection.

We would like to highlight at the several locations that might become potential pests' habitat and some necessary precautions are needed for preventive measures in the future. Please find the following findings as below:

Location: Along Perimeter Drains

Findings & Recommendation:

1) Spotted chocked drains with accumulation of water and fallen dried leaves that might become potential mosquitoes breeding.
2) Kindly maintain well the housekeeping and clean up the fallen dried leaves for preventive measures.
